

Gender Homophily in Referral Networks: Consequences for the Medicare Physician Earnings Gap: Erratum  
By Dan Zeltzer

American Economic Journal: Applied Economics, 12 (2): 169-97.DOI: 10.1257/app.20180201

Page 181: In Table 3, the outgoing referral rates of male and female doctors to male and female specialists were mistakenly interchanged. The correct rates are: female to female, 20.5%; male to female, 15.2%; female to male, 79.5%; male to male 84.8%. Other rates shown are correct.
