

## **Disclosure Statement**

“Defensive Medicine: Evidence from Military Immunity”

Michael Frakes (Duke University, NBER) and Jonathan Gruber (Massachusetts Institute of Technology and NBER)

Michael Frakes declares that funding for this project was received from the National Institute on Aging (Grant Number R01AG49898).

Michael Frakes declares that he has no financial interests in this research nor has he received any funds or benefits related to this project other than the funding described above.

Michael Frakes declares that he has nothing to disclose with respect to items 2, 3 and 4 of the AEA Disclosure Policies, found on <https://www.aeaweb.org/journals/policies/disclosure-policy> (relating to significant financial support).

Michael Frakes declares that the manuscript was subject to a review by the Department of Defense prior to circulation (for security purposes).

Michael Frakes declares that this research received approval by the Institutional Review Board at the National Bureau of Economic Research.

Michael Frakes declares that the authors obtained the data for this project—the Military Health System’s MDR database—pursuant to a Data Use Agreement with the Department of Defense. The agreement prevents the authors from sharing these data with others. However, our DOD sponsors are willing to discuss with interested parties the process by which they may be able to obtain access to the MDR database for replication purposes.
