

Disclosure for manuscript submitted to AEJ:Economic Policy, titled “Response to Ho, Ashwood and Handan-Nader ‘Limitations of Simple Information Disclosure: New Evidence on Restaurant Hygiene Grading’”

This paper responds to Ho, Ashwood and Handan-Nader’s comments on our 2003 publication at the Quarterly Journal of Economics “The Effect of Information on Product Quality: Evidence from Restaurant Hygiene Grade Cards.”

I have not received any financial report from any individual or organization for this paper. Hazel Analytics, a company I co-founded in 2014, promotes open government data including retail food safety inspection records.

A handwritten signature in black ink, appearing to read 'GJin'.
