

**Re: Disclosure Statement for the Submission of “All Eyes on Them: A Field Experiment on Citizen Oversight and Electoral Integrity” to the American Economic Review**

Funding for this project was provided by the J-Pal Governance Initiative, the Center on the Politics of Development (at UC Berkeley) and the George and Obie Schultz Fund (at MIT).

The experiment was approved by MIT's IRB (the *Committee on the Use of Humans as Experimental Subjects*) with reference #1904805455.

The RCT is registered in the AEA RCT Registry with unique identifying number “AEARCTR-0004678”.

Apart from these grants, I did not receive any financial or in-kind payments to conduct this research, nor do I have any close relative working in any organization related to this research.

Sincerely,

A handwritten signature in black ink, appearing to read 'Mateo M.' with a stylized flourish at the end.

Mateo Montenegro
