

Human Capital Accumulation at Work: Estimates for the World and Implications for Development

Paul Romer
NYU Stern School of Business
Disclosure Statement
September 1, 2021

This study emerged during my tenure as Chief Economist of the World Bank. This study is a background paper for the World Bank's "World Development Report 2019" and was supported by the Office of the Senior Vice-President and Chief Economist.

This study is independent and is not motivated by financial, ideological, or political interest.

No other party had the right to review this paper before its publication.

The disclosures required above also apply to my close relatives and partner.
