

Disclosure Statement of Alessandro Acquisti

Acquisti gratefully acknowledges support from the Alfred P. Sloan Foundation and the Carnegie Corporation of New York via an Andrew Carnegie Fellowship. This research was supported by the National Science Foundation under Grant CNS-1012763, Carnegie Mellon CyLab, TRUST (Team for Research in Ubiquitous Secure Technology), which received support from the National Science Foundation (NSF award number CCF-0424422), and the IWT SBO Project on Security and Privacy for Online Social Networks (SPION). The Ponemon Institute, CareerBuilder, and Socialbakers provided auxiliary data used in the analysis.

In the past, Acquisti has also received research funds from the National Science Foundation, European Union Joint Research Center, Department of Homeland Security, DARPA, National Security Agency, IWT SBO Project on Security and Privacy for Online Social Networks (SPION), Google, and Microsoft Research. However, none of these parties is an "interested" party (that is, none of these parties have a financial, ideological, or political stake related to the article). Thus, Alessandro Acquisti declares that he has no other relevant or material financial interests that relate to the research described in this paper.
